V. U. Nagar, Gujarat, India.

Sub : RTC 103.6 DL – Online Sand Controller Performance

We are pleased to inform you that we are satisfied with the performance of RTC103.6 DL supplied and commissioned in Dec 2013.

We have benefited in controlling the sand properties by managing the moisture level as required, resulting in reduction of mould breakage control of sunken and complex moulds.

We are 100% satisfied with the results and RTC is an integral part of the system which manages our Prepared Sand System and Control on Rejection due to Sand.

We thank you for your excellent service and support for the system.

Your support for installation, process, servicing and spares is well appreciated and we thank you for the same.

Thanking you,
Yours faithfully,

For JMT India Inc
